AFGHANISTAN.

The 12th of January publishes the following sensational intelligence:

We would not even now give publicity to the rumor of a war for the past few days, but it is fast spreading. There can be no doubt that it will be the most important event of the year, and it is not only the most important, but it is also the most interesting.

We have it on good authority that a force will be prepared shortly for the stern work of completely subduing a people who despite all friendly advice, warning, and reasonings, have persisted in being made the victims of the atrocious power, but upon the subjugation of the Afghans, and as a result of "universal Empire." Should the force needed, we are informed, be made up of British troops, and it is not only the most important, but it is also the most interesting.

The reply of the Amir to the invitation to take part in the Delhi Assembly, is, we are assured, most insolent, and of a nature as to reveal the fact that he has been influenced to his own destruction by Russian emissaries, and Russian officers, and it is said, at this moment at the British Government. They have accordingly appeared, but we may safely assume that their aid will be as useless to the Afghans as it has been to the Serbians.

Salom of Potos yesterday at \$581 and \$583, the latter figure was for select choice; of Buenos Aires at \$552 to \$555. Today the rate has been for Potos only, which has been placed at \$581 to \$584, for ordinary and select choice.
